

The Jefferson County Adult Sexual Assault Response Team (SART) seeks to improve services to adult victims of sexual assault and increase offender accountability. If you are a victim of sexual assault, whether the assault occurred recently or in the past, you may contact one or more of the team listed below for help connecting to resources.

If the assault occurred in the last 120 hours (5 days)

Forensic exam at the hospital –	Report to law enforcement –
<p>It may be possible to collect DNA evidence in the first 120 hours after an assault. We recommend going as soon as possible to the emergency room and request a sexual assault (SANE) exam.</p> <p>Both hospitals in Beaumont have or have access to specially trained nurses who can examine you, collect forensic evidence, and provide you with medical treatment.</p>	<p>If the victim of a sexual assault is a child, reporting the abuse/assault to law enforcement is required.</p> <p>Adult victims have a choice about whether to report their assault to law enforcement. If you are an adult victim and you haven't decided whether to contact law enforcement, you can still request a SANE exam. The evidence can be collected now and held for a time while you decide.</p>
