Out of State Travel

For: Aaron Hatcher
Airport Maintenance

Where: Airfield Marking Symposium
Orlando International Airport
Orlando, Florida

When: September 15-17, 2020

Course Title: Airfield Marking Symposium

The trip is budgeted in this year's Airport Budget. Originally, the training was scheduled for California, however that training was cancelled due to Covid-19 restrictions.

The training is required by the FAA per AC 150/5340-1M where personnel involved in the application of airfield surface markings shall complete training which includes surface preparation, removal and application of surface markings, and maintenance standards.

The training is well worth the cost since having a better understanding of proper airfield marking techniques will result in our ability to stay in compliance with FAA Inspectors.

The training is not currently available in Texas. The symposium moves periodically hosted by various larger airports across the nation.

This workshop is a two and a half day course covering the best practices relating to airfield markings, presented by Sightline. The course is ideal for Engineers, Applicators, Maintenance and Operations staff, Airport Managers and Inspectors, and the best way to stay **compliant** and updated on **current standards and regulations** (per FAA Advisory Circular AC 150/5340-1M).

Mornings consist of in-classroom learning the best practices from Airfield Marking Handbook.

Afternoons consist of best practices put to practice during state-of-the-art equipment demonstrations on the airfield.

RESPONSIBILITIES OF THE SUBGRANTEE

- A. Carry out all performance measures established in the grant, including fulfilling the law enforcement objectives by implementing the Operational Plan contained in this Grant Agreement.
- B. Submit all required reports to the Department (TxDOT) fully completed with the most current information, and within the required times, as defined in Article 3 and Article 7 of the General Terms and Conditions of this Grant Agreement. This includes reporting to the Department on progress, achievements, and problems in monthly Performance Reports and attaching necessary source documentation to support all costs claimed in Requests for Reimbursement (RFR).
- C. Attend grant related training as requested by the Department.
- D. Attend meetings according to the following:
1. The Department will arrange for meetings with the Subgrantee to present status of activities and to discuss problems and the schedule for grant related activities.
 2. The project director or other appropriate qualified persons will be available to represent the Subgrantee at meetings requested by the Department.
- E. Support grant enforcement efforts with public information and education (PI&E) activities. Salaries being claimed for PI&E activities must be included in the budget.
- F. For out of state travel expenses to be reimbursable, the Subgrantee must have obtained the written approval of the Department, through eGrants system messaging, prior to the beginning of the trip. Grant approval does not satisfy this requirement.
- G. Maintain verification that all expenses, including wages or salaries, for which reimbursement is requested, is for work exclusively related to this project.
- H. Ensure that this grant will in no way supplant (replace) funds from other sources.
- Supplanting refers to the use of federal funds to support personnel or any activity already supported by local or state funds.
- I. Ensure that each officer working on the STEP project will complete an officer's daily activity report form. The form should include at a minimum: name, date, badge or identification number, type of grant worked, Enforcement Zone identifier, mileage (including starting and ending mileage), hours worked, type of warning or citation issued or arrest made, officer and supervisor signatures.
- J. All STEP agencies must provide the following provision in all daily activity report forms:
- "I understand that this information is being submitted to support a claim against a federally-funded grant program. False statements on this form may be prosecutable under 18 USC:

Jefferson County Sheriff's Office
STEP Comprehensive 2020

1001: This information on this form is true, correct, and complete to the best of my knowledge and ability."

The above language should be added to the activity reports immediately above the signature lines of the officer and supervisor.

K. Ensure that no officer above the rank of Lieutenant (or equivalent title) will be reimbursed for enforcement duty unless the Subgrantee received specific written authorization from the Department, through eGrants system messaging, prior to incurring costs.

L. If an officer makes a STEP-related arrest during the shift, but does not complete the arrest before the shift is scheduled to end, the officer can continue working under the grant to complete that arrest.

M. The Subgrantee should have a safety belt use policy. If the Subgrantee does not have a safety belt use policy in place, a policy should be implemented, and a copy maintained for verification during the grant year.

N. Officers working DWI enforcement must be trained in the National Highway Traffic Safety Administration/International Association of Chiefs of Police Standardized Field Sobriety Testing (SFST). In the case of a first year subgrantee, the officers must be trained, or scheduled to be SFST trained, by the end of the grant year. For second or subsequent year grants, all officers working DWI enforcement must be SFST trained.

O. The Subgrantee should have a procedure in place for contacting and using drug recognition experts (DREs) when necessary.

P. The Subgrantee is encouraged to use the DWI On-line Reporting System available through the Buckle Up Texas Web site at www.buckleuptexas.com.
